## MICRODERMABRASION

Microdermabrasion is a skin resurfacing treatment. Resurfacing is a technique for removing the topmost layer of skin leaving it renewed and vibrant, with a smoother texture and promotes the growth of healthy new skin cells. The skin is exfoliated with a natural diamond chip wand while at the same time vacuuming the dead skin cells away in a sterile controlled manner.

This process of skin renewal will soften and smooth fine lines, lighten pigment and improve acne and other skin imperfections.

Microdermabrasion can be performed on the face, neck, back and hands.

**\$90 per treatment or \$129.00 including 1 hour Dermalogica facial.**

## LED LIGHT THERAPY

LED is one of the latest and best non-invasive anti-aging treatments in the world today – it is collagen building for aging skin, wound healing and acne reduction. Science has proven that the body has a positive response to three specific wavelengths; 420nm (blue) kills the bacteria that cause acne, 633nm (red) stimulates collagen and increases elasticity, 830nm (infrared) stimulates the tissue and speeds up cell renewal to increase wound healing.

**\$60 per 20min session or \$35 when added to any facial service.**

## FACE TREATMENTS

### FACE MAPPING SKIN ANALYSIS

Complimentary Expert Analysis. Targeted Results. Our Dermalogica trained Skin Therapist can provide a deep look into your skin's health. The latest advances in skin analysis provide you with a treatment specifically designed to address your personal concerns.

### THE DERMALOGICA FACIAL TREATMENT **\$90 | 1 Hour**

This is our foundation one hour facial treatment, customised to each individual based on the Face Mapping Analysis of your skin. Double cleanse, power exfoliate, extractions (if necessary), aromatherapy facial massage, masque and serum leaving you completely renewed.

### SPECIFIC CONCERN TREATMENTS

#### Medicated Clearing **\$99 | 1.15 Hours**

Perfect for skin suffering from breakouts, this treatment helps clear existing breakouts while preventing future ones by using purifying deep cleansing techniques and powerful acne fighting formulas.

#### Environmental Control **\$97 | 1.15 Hours**

If your skin is looking red, inflamed or feeling itchy, then this is the treatment for you. Our super-soothing cleansing will remove impurities from your skin, followed by a calming oatmeal mask to instantly calm redness and reduce inflammation.

#### Skin Brightening **\$99 | 1.15 Hours**

Help stop uneven pigmentation at its cause. This treatment, when combined with proper home care, regulates pigment production on a cellular level, balancing the complexion.

#### Multi-Vitamin Power **\$99 | 1.15 Hours**

A unique treatment that delivers a concentrated dose of vitamins to the skin, formulated to reduce the signs of aging and encourage the skin's natural repair process to improve texture. The ideal choice for sun damaged, pigmented and dull skin.

#### Power Regeneration **\$120 | 1½ Hours**

Concerned about the signs of ageing on your skin? Feel like your skin needs a revitalizing boost? Combined vitamin and hydroxy acid exfoliation, massage and specialized mask makes this the ultimate in skin therapy for prematurely-ageing, dry devitalized skin. Your skin will be noticeably firmer, smoother and revived.

## ION ACTIVE POWER FACIAL

**\$120 | Allow 1 hour**

Enjoy rapid, visible results with this action-packed treatment, combining thermal activity and the latest treatment-room technology. Active ingredients are applied to the skin, which are then "supercharged" with thermal activity using heating or cooling Gelloids to drive ingredients faster and further into your skin. Technology can range from Galvanic or High Frequency modalities to Ultrasound and LED Therapy, depending on your needs.

Available concentrates include:

- **Retinol** to firm and reduce visible signs of skin aging.
- **Niacinamide** to control and prevent acne breakouts.
- **Hyaluronic Acid** to relieve dehydrated and/or sensitized skin.
- **Oligopeptide** to brighten hyperpigmentation for a more balanced skin tone.

Expect to feel your skin to feel revived and refreshed with:

- Fewer visible fine lines and wrinkles;
- Fewer breakouts and improved acne;
- More balanced skin texture and tone and increased hydration

Most clients notice visible results right away, and see even more progress over the course of several treatments.

## MASSAGE

Restore, release and rescue your body. Combine two or more techniques or focus on one to erase fatigue and tension from your muscles. Our qualified therapist can utilise their skills in Swedish, lymph drainage, aromatherapy, to tailor a massage treatment to suit your specific needs.

## TATTOO REMOVAL

You no longer have to live with tattoos you don't enjoy.

Laser Tattoo Removal can completely remove most tattoos, or lighten them so your tattoo artist can do a cover up with artwork you do want.

To schedule a free consultation or find out about our current specials, please contact us.

### HOW ARE TATTOOS REMOVED?

Q-Switched Yag lasers are used to target the pigment in tattoo ink that resides below the skin's surface and fragment it. Your body's natural immune system will then absorb, break down and dispose of the ink.

### IS THERE A CONSULTATION FEE?

No, we do not charge a consultation fee.

### HOW MUCH WILL LASER TATTOO REMOVAL COST?

Tattoo removal starts at \$100 per session.

### IS LASER TATTOO REMOVAL PAINFUL?

Each person perceives pain differently, so there is no definitive answer. There will be some mild discomfort that is often associated with a hot rubber band being snapped on the skin. Within minutes of the procedure being finished, most clients report little to no discomfort at all.

### HOW MANY TREATMENTS ARE NEEDED?

The age, location and quality of the tattoo and colors used, combined with your body's ability to dispose of the ink will determine the total number of treatments needed. For complete tattoo removal, a minimum of 5 is recommended, for tattoos that will be covered up, a minimum of 3 is recommended. Homemade tattoos often require as little as 4 treatments to completely remove.

### HOW LONG DO I WAIT BETWEEN TREATMENTS?

Each person recovers differently, we generally suggest 4-6 weeks between treatments.

### WILL MY TATTOO BE COMPLETELY REMOVED?

In most cases, yes, however there are no FDA regulations on tattoo ink and several hundred colors, manufacturers and formulas. Some colors may require more treatments to completely remove.

### CAN I HAVE ONLY PART OF MY TATTOO REMOVED?

Yes. Often times there is a portion of a tattoo that you would like removed and / or covered, and we can target just those portions of your tattoo.

### WILL MY TATTOO BE COMPLETELY REMOVED?

In most cases, yes, however there are no FDA regulations on tattoo ink and several hundred colors, manufacturers and formulas. Some colors may require more treatments to completely remove.

### WHAT IF I ONLY WANT TO LIGHTEN MY TATTOO/GET IT COVERED?

Choosing to have your tattoo lightened prior to a cover up will result in a much better quality final tattoo, and is often suggested by tattoo artists. We can stop treatments when your tattoo artists is happy with the results and confident they can give you the tattoo you desire.

### WILL THERE BE ANY SCARRING?

The chances of scarring are very low, however it is possible if the aftercare instructions are not followed. There is a slight possibility of hyper-pigmentation or hypo-pigmentation, which will be covered during your initial consultation.

Pre-existing scars present prior to laser tattoo removal will still be there after treatments, only the inks will be targeted and effected.

### WILL I SEE CHANGES AFTER EACH TREATMENT?

Because of the inconsistency in tattoo ink and each client being different, you may not see a change after each session, although most clients will see immediate change after the very first treatment. We photograph and record each tattoo prior to treatment so we can plot progress for you.

### WHAT SHOULD I DO BEFORE MY TREATMENT?

Wash and clean the skin, shave and avoid any lotions prior to treatment. Avoid getting the area sunburnt prior & after treatment. If you would like to use numbing cream please apply 2 hours prior to treatment and cover with cling wrap.

### WHAT'S INVOLVED WITH AFTERCARE?

Complete aftercare will be given at the time of removal, including a take home care sheet.

## BODY CONTOURING/ SCULPTING

Safe, effective nonsurgical treatment that works for same-day inch loss.

The power of ultrasound with radio frequency. Target stubborn areas of fat from your stomach, hips, thighs, saddlebags and see same day changes without pain, needles or down time.

- Body slimming & shaping
- Cellulite reduction
- Skin Tightening

**\$650 Series of 10 Treatments**  
**2 visits per week recommended.**

## FEATHER TOUCH EYEBROWS

Permanent makeup technique that creates natural, feathery hair strokes.

Sparse eyebrows & gaps can be beautifully filled in for any hair colour and skin tone. This unique tool is designed to create dimension in the brows, rather than a solid colour application, for a more natural & authentic look.

### Does it hurt?

Most describe it no more painful than eyebrow tweezing. We provide you with a topical anaesthetic ointment & strive to give you the most comfortable experience yet.

### How long will it last?

Approximately 18 months before needing a touch up. Permanent Makeup is a different than a tattoo, because of the pigment used. You will see a gradual fading, as this gives you the flexibility to change the shape & colour natural changes in skin tone & facial structure over time.

### How long does this appointment take?

On the day of your appointment, please set aside around 2 hours for your appointment time. This time will include the consultation, paperwork & also your brow application.

### How do I take care of my new eyebrows?

You will be given aftercare to follow for 10 days after the application. This will include a highly nourishing organic balm that will protect & assist with healing. It is important to note that during this time, the colour of your brows will be very pronounced as they are healing into the skin. You can expect the colour to lighten & soften after the application is fully healed within 10 days. Please refrain from wearing makeup for 3 days during healing.
